

## VenRoboTech

Breath of fresh innovation!

Smart adjustable ventilation fan to track dust and crowded places to enhance air circulation.

VenRoboTech consists of an intelligent electronic eye (optical dust sensor) that is sensitive to dust and crowded environments that humans accumulate, based on which it rotates and adjusts its speed for air conditioning operations. The height of this system is adjustable to the environment. The head of this device rotates 270 degrees.

### Key benefits

- Portable solution
- Silent and efficient
- Intelligent pollution detection
- Automatic rotation and height adjustment

### Product details

Height	1.5-2.5 meters
Weight	15 kg
Voltage	110 volts / 60 Hertz

Adjustable features	Height, direction, and position
Product life	15 years
Warranty	12 months
Portability	Yes
Rechargeable	Yes
Battery lifetime	Approximately 5-7 hours per charge
Battery lifetime (Charging)	Approximately 1000 times charging
