Smart adjustable ventilation fan to track dust and crowded place to enhance air circulation.

VenRoboTech consists of an intelligent electronic eye (optical dust sensor) that is sensitive to dust and crowded environments that humans accumulate, based on which it rotates and adjusts its speed for air conditioning operations. The height of this system is adjustable to the environment. The head of this device rotates 270 degrees.

## **Key benefits**

- Portable solution
- Silent and efficient
- Intelligent pollution detection
- Automatic rotation and height adjustment

## Product details

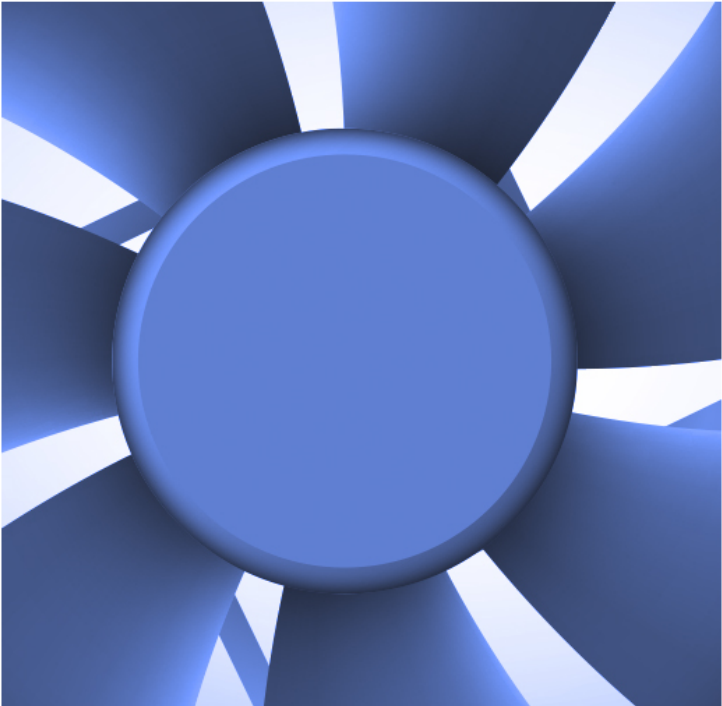

<b>Height</b>	<b>1.5-2.5 meters</b>
<b>Weight</b>	<b>15 kg</b>
<b>Voltage</b>	<b>110 volts / 60 Hertz</b>
<b>Adjustable features</b>	Height, direction, and position
<b>Product life</b>	<b>15 years</b>
<b>Warranty</b>	<b>12 months</b>
<b>Portability</b>	<b>Yes</b>
<b>Rechargeable</b>	<b>Yes</b>
<b>Battery lifetime</b>	<b>Approximately 5-7 hours per charge</b>
<b>Battery lifetime (Charging)</b>	<b>Approximately 1000 times charging</b>
